DETAILED ACTION

1. Applicant's remarks filed 5/22/06 have been entered.

Allowable Subject Matter

2. Claims 1-20 are allowed over the prior art of record.

Reasons For Allowance

3. The following is an examiner's statement of reasons for allowance: The prior art does not disclose nor fairly suggest a method for fabricating a photodiode as described in independent claims 1 and 16.

Since the substrate and the doped layer belong to different conductive types, a junction having a surrounding depletion region capable of sensing incident light intensity is formed. The present invention is able to produce a depletion region with a larger area inside the photodiode thus making the photodiode having a higher sensitivity to the illumination level.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Monica D. Harrison whose telephone number is 571-272-1959. The examiner can normally be reached on M-F 7:00am-3:30pm.
